

Did you know that over fifty percent of Americans currently do not have a budget in place?

I'm Keith Kuzera, a financial consultant with SVA Plumb Wealth Management and I specialize in comprehensive financial planning. Typically I'm asked to speak with groups about maximizing retirement plan benefits. If you're an employer that cares about your employees enough to put a retirement plan in place, or have questions about how asset allocation ties to risk tolerance, I'd be happy to speak with your group. Contact SVA Speaker Source and I look forward to working with you.
